

THE TOURIST ACTIVITY OF LOCAL GOVERNMENTS IN POMERANIAN AND WESTERN-POMERANIAN PROVINCES

Summary

The paper presents the activity of local governments in tourism sector. The conclusions result from the surveys carried out in 180 local governments (Pomeranian Province – 81, Western-Pomeranian Province – 99) and in 24 administrative districts (10 and 14).

The survey presents that tourism is of low importance in the activity of local governments. The tourism sector has economic function in only 22 local governments from these provinces.
