**UWARUNKOWANIA PODEJMOWANIA OPTYMALNYCH DECYZJI
W PLANOWANIU TRAS PRZEWOZÓW**

Determinants of the optimal decisions in the rout planning

The optima transportation plan stands for the important factor of wide understood effectiveness of logistic processes. The finding of optimal solution is a difficult task and can be supported by theoretical tools in the form methods and algorithms and modern information technologies. In each case however all essential factors influencing the mentioned effectiveness ought to be considered.
