THE DEVELOPMENT OF TOURISM IN THE PROF. FALIŃSKI „HAĆKI” NATURAL AND LANDSCAPE AREA

Summary

In the article there was presented the attractiveness of a natural and landscape area, which needs some tourist development. Taking into consideration its tourist advantages and location, it should be stressed that there is some need for bringing the area to the social use. That would do good for the inhabitants of the Podlasie province and the adjacent areas. The involvement of self-government and socio-political organizations is essential to carry out the undertaking to its proper usage.

The aim of the article is to present any possibilities of the usage of the unique area for the needs of the development of the tourist movement.
