Provision of services, including physical culture, is the task of the local government units. In the
provision of services physical culture plays the crucial role. It’s basic aim is care of proper psychophysical
development and health of the citizens of a particular local government’s unit.

Physical culture is financed by own income as well as by money from the country budget. According to the established sport strategy until the year 2015 local government units of all levels will devote up to 3% of their all expenses on physical culture.
