

LEGAL CONDITIONING OF POSTAL SERVICES MARKET REGULATION

Summary

The article presents the legal aspects of national regulation of postal services market. It emphasizes, that liberalization of this sector ought to adjust the rules of free market economy and the needs of society in this area. From this point of view, three issues are the very important: permanent monitoring of transition of postal services market; consultations with the groups interested in that process - customers, postal workers and entrepreneurs; creation the effective postal regulatory body. What is more, the paper indicates the necessity of amendment to the law connected with the Postal Directive 2008, regulator's experience and development of this segment of the market in Poland.
