THE SCOPE OF USING THE KNOWLEDGE BY OPERATOR OF POSTAL SERVICES IN CANADA AND POLAND

Summary

The Polish postal market as well as in other countries of the EU is in the process of changes aiming at the liberalization of the market. Therefore in next few years we will see many changes in the postal sector.

This paper compares chosen action realized by public operators in Poland and Canada. Creating knowledge is a powerful action, that can be useful not only for the organization. Creating and sharing with knowledge should be a field of interests of public postal operators in Canada and Poland, specially the knowledge which will serve the whole society
